

In Term 1, the P5 Adventure Camp at MOE Dairy Farm Outdoor Adventure Learning Centre proved to be an unforgettable experience for all participants. Over the course of three days and two nights, students embarked on a journey themed "Growing Together," focusing on teamwork and collaboration.

The camp aimed to achieve several objectives, including fostering social skills by encouraging students to make new friends, developing self-leadership by empowering them to take charge of their learning and build resilience, and cultivating team leadership through roles such as Class Leaders, Peer Support Leaders, and PE Leaders.

Activities were designed to challenge and inspire students, ranging from high-element adventures like abseiling and rock climbing to low-element activities and a challenging rope course. Additionally, students engaged in stream exploration and embarked on a journey around Bukit Timah Nature Reserve, immersing themselves in the beauty of the natural environment.

For many P5 students, the adventure camp marked their first overnight experience away from home. Despite initial apprehensions, students were delighted and grateful for the opportunity to participate. As they embraced new challenges and worked together to overcome obstacles, bonds between classmates grew stronger.

Overall, the objectives of the camp were successfully met, with students emerging more confident, resilient, and bonded as a cohesive team. The overwhelmingly positive reviews from students underscored the immense value of the experience and highlighted the lasting impact it had on their personal growth and development.
